WILLAMETTE VALLEY PINOT NOIR ROSÉ BUBBLES

Identifying the opportunity to craft wines that reflect the purity and depth of their Willamette Valley origins, Chemistry is the first collaborative project between Stoller Family Estate and Chehalem Winery. Sourced from premier vineyard sites in the Willamette Valley, Chemistry wines are made for life's everyday moments.

Sweet aromatics of Bubblicious watermelon fill the glass with hints of peaches and cream as you pull away. The palate is dry, juicy and vibrant, making for an unexpected delight, showing flavors of watermelon and tart strawberry. There's a richness that fills out the mid-palate with flavors of watermelon and tart strawberry that begs for another sip.

Lush and lively, this rosé bubbles is the perfect addition to any brunch or patio party.
